The Hulsø Shelf

Originally designed in 1949, the Hulsø Shelf reimagines the shelf as more than just a functional backdrop, elevating it to an artistic element. Unearthed from Finn Juhl's archives, the wave-shaped design was initially created for the winter garden of Magister W. Andersen in Hulsø Ege, Denmark. When combined, the shelves form a cohesive, organic expression with soft curves, embodying Finn Juhl's holistic approach to design. The Hulsø Shelf is available in solid FSC® certified oak or walnut and can be mounted on the wall individually, in rows, or in free formations.
