## 48 SOFA BENCH 1948

The 48 Sofa Bench is part of the 48 Series, which was presented at the Cabinet Makers' Guild Exhibition in 1948. Even to the modern eye, it is clear that Finn Juhl's ideas reached far into the future, when they were presented in 1948. The Sofa Bench embraces the seated person while the rounded surfaces are shaped to fit the gravity of the resting body and its proportions. The organically shaped double seat and backrests are raised from the carrying frame in an almost demonstrative manner. Visually this lifts the seated person, making it appear as if the law of gravity has been defeated.
